Full-stack software engineer building production web applications with React, TypeScript, Node.js, and .NET.

## WORK EXPERIENCE

### PARAMET

Full-Stack Software Engineer | Jul 2023 - Present

- Develop and enhance full-stack web and mobile applications, building responsive user interfaces and backend services across greenfield and legacy projects for external clients.
- Design and implement REST APIs and data models using .NET, ensuring scalable architecture and reliable contracts across the stack.
- Take features from requirements through to delivery, working with stakeholders to shape and refine solutions.
- Present and demo software, explaining technical decisions in clear, practical terms.
- Support onboarding of new developers, helping them get up to speed with projects and tooling.
- **Tech:** React, TypeScript, JavaScript, .NET, C#, SQL Server, Flutter.

### NORTHCODERS BOOTCAMP

Trainee Software Developer | Jan 2023 - Apr 2023

- Completed a full-time, immersive training programme focused on full-stack JavaScript development.
- Built and deployed team-based projects using React, Node.js, PostgreSQL, and RESTful APIs.
- Applied TDD, Agile workflows, pair programming, and Git in a collaborative environment.

### LONDON BLACK CAB DRIVER

Self-Employed | 2012 - 2022

- Worked independently in a customer-facing role, building strong communication and problem-solving skills.

## PERSONAL PROJECTS

### COMPLETED IT MATE

[completeditmate.app](https://completeditmate.app)

Full-stack web application for tracking video game collections, built with React, Node.js, and MongoDB. Designed and delivered end-to-end, including API design, data modelling, background jobs, TDD, and CI/CD pipelines.

### LOREM ALAN

A VS Code extension that generates Alan Partridge-style placeholder text, published to the VS Code Marketplace.

## EDUCATION

### ANGLIA RUSKIN UNIVERSITY

BSc (Hons) Business with Economics

## SKILLS

React	TypeScript	JavaScript	Node.js	.NET	C#	SQL Server	MongoDB	Flutter
